

Pregnancy and Neonatal Outcomes in COVID-19

Study Bulletin: Thursday 10 December 2020

Submitted case reports for pregnant individuals admitted to hospital or in midwifery care between January 1, 2020 and December 10, 2020.

Important considerations: Raw data, not yet cleaned or adjusted; intended to inform on study progress and not as interim or final analysis. For use by collaborating centres and not for wider distribution.

Week of pregnancy at delivery?	n = 4066	%
<23 weeks	58	1.4
23 – 36 weeks	310	7.6
≥37 weeks	3698	90.9
Outcome of delivery?	n = 4100	%
Miscarriage	52	1.3
Intra-uterine death/ stillbirth (>22+6 weeks gestation)	17	0.4
Number of participants with fetal growth restriction?	n = 4098	%
Fetal growth restriction	172	4.3

Pregnancy and Neonatal Outcomes in COVID-19

Study Bulletin: Friday 20 November 2020

Submitted case reports for pregnant individuals admitted to hospital or in midwifery care between January 1, 2020 and November 20, 2020.

Important considerations: Raw data, not yet cleaned or adjusted; intended to inform on study progress and not as interim or final analysis. For use by collaborating centres and not for wider distribution.

Week of pregnancy at delivery?	n = 3577	%
<23 weeks	52	1.5
23 – 36 weeks	278	7.8
≥37 weeks	3247	90.8
Outcome of delivery?	n = 3607	%
Miscarriage	50	1.4
Intra-uterine death/ stillbirth (>22+6 weeks gestation)	15	0.4
Number of participants with fetal growth restriction?	n = 3605	%
Fetal growth restriction	152	4.3

Pregnancy and Neonatal Outcomes in COVID-19

Study Bulletin: Thursday 5 November 2020

Submitted case reports for pregnant individuals admitted to hospital or in midwifery care between January 1, 2020 and November 5, 2020.

Important considerations: Raw data, not yet cleaned or adjusted; intended to inform on study progress and not as interim or final analysis. For use by collaborating centres and not for wider distribution.

Week of pregnancy at delivery?	n = 3326	%
<23 weeks	49	1.5
23 – 36 weeks	255	7.7
≥37 weeks	3022	90.9
Outcome of delivery?	n = 3357	%
Miscarriage	49	1.5
Intra-uterine death/ stillbirth (>22+6 weeks gestation)	13	0.4
Number of participants with fetal growth restriction?	n = 3355	%
Fetal growth restriction	144	4.3

Pregnancy and Neonatal Outcomes in COVID-19

Study Bulletin: Thursday 22 October 2020

Submitted case reports for pregnant individuals admitted to hospital or in midwifery care between January 1, 2020 and October 22, 2020.

Important considerations: Raw data, not yet cleaned or adjusted; intended to inform on study progress and not as interim or final analysis. For use by collaborating centres and not for wider distribution.

Week of pregnancy at delivery?	n = 3110	%
<23 weeks	47	1.5
23 – 36 weeks	240	7.7
≥37 weeks	2823	90.8
Outcome of delivery?	n = 3139	%
Miscarriage	47	1.5
Intra-uterine death/ stillbirth (>22+6 weeks gestation)	12	0.4
Number of participants with fetal growth restriction?	n = 3121	%
Fetal growth restriction	137	4.4
